

## KEY

- Pergola** - a breezy shelter and support for vines.
- Annual growing beds** - we grow most of our vegetables here and use crop rotation and organic systems.
- Bulk storage** - a place to collect manure, woodchip, leafmould.
- Yard** - vehicle access, plant nursery and wood store.
- Container** - storage for hand tools, gloves, DIY, carpentry etc.
- Polytunnel** - a sheltered indoor space for tender veg eg tomatoes, chillies, cucumbers etc.
- Hugel mounds** - log filled earth mounds supporting diverse perennial planting.
- Cob oven** - woodfired pizza /bread oven
- Cabin** -information and library plus tea making
- Shelter** - field kitchen, washing up and main dining area.
- Loo** - a urine separating compost toilet.
- Water harvesting** - catching and storing rainfall from roof in large tanks.
- Central area** - for events, screenings, bonfires, socials etc
- Composting** - cycling of garden waste into re useable organic matter. We turn the waste on a regular basis to encourage quick breakdown of woody materials.
- Forest garden** - an edible, productive woodland following natural growth patterns and cycles.
- Chicken coop** - home to laying hens.
- Apiary** - home to bees in national, warre and top bar hives.
- Wilderness** - remains of the sites previous use as a dump. Now a haven for birds and foxes.
